

Erika Ornelas!

Designer • Illustrator • Artist

About Me:

Having grown up immersed in illustration and design, my creative arsenal breaks the boundary between traditional and digital. As a fine artist, I specialize in character and concept illustration. As a designer, I create balanced yet eye-catching designs that prioritize readability, accessibility, inclusivity, and creativity in order to maximize reach, responsiveness, and aesthetic appeal. I view my journey as a toy designer as both an extension of my principles as a designer, and as an outlet for my love of the art of play.

Technical Skills:
